

# *Junming He Weekly Report*

2016.04.11-2016.04.17

This week I have spent most of my time on my thesis, and wasted too much time on paper translation...

Of course, I have asked teacher Wei Chen what I could do in the following weeks, and he have replies to me a project have been prepared and will start soon, and tell me to study d3.js.

This week I have taken a lot of Party lectures, maybe three times and I had a test on Sunday this week.

I have forget remembering English words on Tuesday due to a party, so my record on ShanBei have been stopped, which made me unhappy and ashamed.
